

CAUTION

Cut the external protective film to extract a pipe-roll.

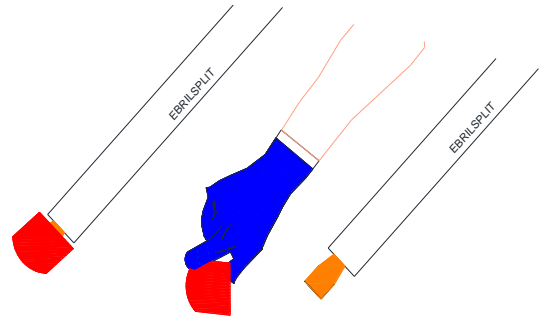

PAY ATTENTION!

- After the removal of the external protective film the pipe-rolls may fall off
- Not to make the roll column unstable

Always wear suited, closely fitting protective work clothes (safety helmet, safety shoes, and safety gloves at minimum), as prescribed by local applicable regulations.

Use protective gloves and be extremely careful while removing the protective caps of the pipes: pipes may present sharp edges and cause injuries.
